My mistake. It's 80-001731, **NOT** 80-000830

Thank you Roger. Just to clarify, this was on Instrument #830 rather than 1731 as indicated in the subject line?

During the agency inspection for 80-000830 the power strip fell off it's mount and turned off. this yurned off the instrument and printer.

The inspection was between the 0.08 g/210L DGS test and the 2nd dignostic test. All results to that point were within compliance.
